Whether you are looking to grow your business by exporting, investing, or listing in the UK we have the experience to assist. We have the expertise in assisting companies of all sizes from family owned up to listed entities with the following:

set up

- **market and feasibility studies** – providing market assessment and feasibility through to business planning
- **company/branch/place of business set up** – advice and administration

expansion

- **fund raising** – both debt and equity for greenfield and acquisitions
- **cross-border acquisition services** – full range of advice from identification of targets through to deal completion
- **assistance with joint ventures and strategic alliances** – advice on selection and structuring

listing

- **transaction support** – due diligence and public reporting accountant services
- **structuring** – group and tax structuring specific for the transaction

compliance

- **audit and tax planning** – added value audit service; minimisation of corporate and all other direct and indirect taxes
- **VAT** – advice on complex UK VAT rules, especially where services are provided to UK companies from a mixture of a UK branch and the Indian establishment
- **internal audit** – fully comprehensive or targeted systems and controls review

access and introductions to advisers and investors

As a result of our experience of international transactions we are active members of the following organisations:

UK India business council ("UKIBC") - the lead organisation supporting the British government in the promotion of bilateral trade, business and investment between UK and India.

UK trade and investment advisory network - a network of government recognised-advisors that can support companies investing in the UK

We are able to introduce you to other advisers such as lawyers, nominated advisers, brokers or investors to assist in your business strategy. These advisers, like ourselves, understand the issues and complexities of assisting in cross-border transactions to ensure the deal runs smoothly and covers all issues.
